

Call for Papers

A CAS Track Symposium **ISICAS 2018** Taormina, Italy, September 2-3, 2018

The International Symposium on Integrated Circuits and Systems (ISICAS) invites high-quality submissions for presenting original work in the areas of integrated circuits and systems. Topics in the area of analog, digital, power, energy, biomedical, sensor interfaces and communication systems are welcome. The submission should describe integrated implementations, in hybrid, SiP, or SoC forms of circuits or systems with experimental results. The symposium will not produce proceedings; **all the accepted papers will be published in two special issues of TCAS-I and TCAS-II** (in the ratio of 1 to 2) shortly after the results are presented at ISICAS 2018.

Extended versions of previously published recent conference papers with significant additional materials are welcome. All the submitted manuscripts will conform to the rules relating to formatting and page count limit set by TCAS-I and TCAS-II. The journal can require making minor revision after the Symposium and before the publication.

The event organisation will follow a "minimum-frill" strategy for keeping affordable the registration fees. The focus will be therefore on peer-to-peer interactions and technical discussions on a pleasant and stimulating environment.

IMPORTANT DATES

Submission deadline for papers: March 31, 2018

Notification of acceptance: June 30, 2018

SYMPOSIUM CO-CHAIRS

Franco Maloberti, University of Pavia, Italy

Amara Amara, TdH, Lausanne, Switzerland
